

Karan Mehta

Python Developer (Backend)

Noida, India | karan.mehta.dev@gmail.com | +91 99887 66554 | linkedin.com/in/karan-mehta-dev | github.com/karanmehta-dev

PROFESSIONAL SUMMARY

Backend Python Developer with 4+ years of experience building scalable APIs, microservices, and data pipelines for SaaS and consumer-facing platforms. Strong grasp of clean architecture, testing discipline, and performance optimization. Experienced working across the full stack from database design to deployment in containerized cloud environments.

TECHNICAL SKILLS

Languages: Python, JavaScript, Bash

Frameworks: Django, Django REST Framework, FastAPI, Flask, Celery

Databases: PostgreSQL, MySQL, MongoDB, Redis

DevOps/Cloud: Docker, Kubernetes, AWS (EC2, S3, RDS, Lambda), GitHub Actions, Nginx

Testing: Pytest, unittest, Postman, Locust (load testing)

Other: REST & GraphQL APIs, RabbitMQ, Kafka, Git, Agile/Scrum

PROFESSIONAL EXPERIENCE

Python Developer (SDE II) — Zoho Corporation

Sep 2022 – Present

Chennai, India

- Designed and built RESTful APIs using Django REST Framework serving 500K+ requests/day for a CRM analytics module.
- Migrated a monolithic billing service into microservices using FastAPI and Docker, improving deployment frequency from monthly to weekly.
- Implemented asynchronous task processing with Celery and RabbitMQ, reducing report generation time from 10 minutes to under 90 seconds.
- Wrote comprehensive unit and integration tests with Pytest, raising code coverage from 58% to 92%.
- Optimized PostgreSQL queries and added indexing strategy that cut average API response time by 45%.

Software Engineer — Paytm

Jun 2020 – Aug 2022

Noida, India

- Developed backend services in Flask for a merchant onboarding platform used by 100,000+ merchants.
- Built internal tooling in Python for automated reconciliation of transaction logs, saving the finance team ~15 hours/week.
- Integrated third-party payment gateway and KYC verification APIs, ensuring compliance with RBI guidelines.
- Set up CI/CD pipelines with GitHub Actions and Docker, reducing release cycle time by 40%.

KEY PROJECTS

TaskFlow — Open-source Task Queue Dashboard | Python, FastAPI, Celery, React, Redis

- Built and open-sourced a monitoring dashboard for Celery task queues; 400+ GitHub stars.

EDUCATION

B.Tech in Information Technology

2016 – 2020

Delhi Technological University

CERTIFICATIONS

- AWS Certified Developer – Associate (2022)
